DETAILED ACTION

EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The drawings filed on 8/31/2001 contain multiple figures in Figure 1. The examiner has renamed Fig. 1 to Figure 1a and Figure 1b. Figure 1a pertains to the circuit portion of the ROIC unit cell, and Figure 1b refers to the waveforms of the 3 circuit nodes.

Further, because the figures were amended, the examiner also amended the brief description of the figures. Lines 7-9, the paragraph describing figure 1, should be replaced with the following:

--Figure 1a is a schematic diagram of an embodiment of a ROIC unit cell circuit constructed in accordance with these teachings;

Figure 1b is a waveform diagram depicting exemplary waveforms at three circuit nodes;--

Authorization for this examiner's amendment was given in a telephone interview with William Schubert on May 1, 2003.

Allowable Subject Matter

1. Claims 1-21 are allowed.
2. The following is an examiner's statement of reasons for allowance:

Regarding claims 1-9, none of the prior art of record discloses the specific configuration of the unit cell of the readout integrated circuit namely that the first circuit is coupled to a

Art Unit: 2878

detector node for setting a bias potential at the node, a second circuit for selectively coupling the integration capacitance to the detector node, and a third circuit for periodically resetting the integration capacitance.

Regarding claims 10-21, none of the prior art of record discloses operating the unit cell during different time frame portions, in order to integrate a first or second signal to a first or second spectral band, respectively. Prior art such as Chapman (US Patent 5,959,339) or Kosai (US Patent 5,559,336), discuss measuring and spectrally assigning the signals, and further disclose that the signals are measured simultaneously, rather than successively in a set time frame, or a TDM (time division multiplex).

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

3. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

- a. US Patent 6,495,830- This reference discloses spectral separation of energy into multiple spectral bands, but does so simultaneously.
- b. US Patent 5,559,336- This reference discloses a detector cell that simultaneously detects LWIR and MWIR bands.
- c. US Patent 5,959,339- This reference discloses a detector with a plurality of diodes that detect different bands of wavelengths, but does so simultaneously.

Notice of Fee Increase on January 1, 2003

If a reply to a "Notice of Allowance and Fee(s) Due" is filed in the Office on or after January 1, 2003, then the amount due will be higher than that set forth in the "Notice of Allowance and Fee(s) Due" since there will be an increase in fees effective on January 1, 2003. See Revision of Patent and Trademark Fees for Fiscal Year 2003; Final Rule, 67 Fed. Reg. 70847, 70849 (November 27, 2002).

The current fee schedule is accessible from: <http://www.uspto.gov/main/howtofees.htm>.

If the issue fee paid is the amount shown on the "Notice of Allowance and Fee(s) Due," but not the correct amount in view of the fee increase, a "Notice to Pay Balance of Issue Fee" will be mailed to applicant. In order to avoid processing delays associated with mailing of a "Notice to Pay Balance of Issue Fee," if the response to the Notice of Allowance and Fee(s) due form is to be filed on or after January 1, 2003 (or mailed with a certificate of mailing on or after January 1, 2003), the issue fee paid should be the fee that is required at the time the fee is paid. If the issue fee was previously paid, and the response to the "Notice of Allowance and Fee(s) Due" includes a request to apply a previously-paid issue fee to the issue fee now due, then the difference between the issue fee amount at the time the response is filed and the previously paid issue fee should be paid. See Manual of Patent Examining Procedure, Section 1308.01 (Eighth Edition, August 2001).

Questions relating to issue and publication fee payments should be directed to the Customer Service Center of the Office of Patent Publication at (703) 305-8283.
